PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student (graduating 2027) seeking a Web Developer role. Hands-on with HTML, CSS, JavaScript and React.js, having built a responsive React career dashboard and Python back-end APIs in Flask and FastAPI. Completed an IBM SkillsBuild front-end web development program and deployed a live web application on Vercel, using Git and GitHub for version control.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS, Framer Motion, Recharts, Responsive Design
Backend: Node.js, Express.js, Flask, FastAPI, REST APIs
Databases: MySQL, MongoDB
Programming Languages: JavaScript, Python, SQL
Developer Tools: Git, GitHub, Vercel
Additional (ML): Scikit-learn, Pandas, NumPy

PROJECTS

SkillSync AI - Career & Placement Management Platform | React.js, JavaScript, Tailwind CSS, Framer Motion, Recharts

- Developed a responsive career dashboard with job application tracking, interview preparation and interactive career analytics.
- Built reusable React components with dynamic filtering, application status management, form validation and LocalStorage persistence.
- Implemented a job description matching interface showing matching skills, skill gaps and learning recommendations using a demo-analysis workflow, with smooth animations.

Student Wellness Score AI | Python, FastAPI, JavaScript, Scikit-learn, Vercel
Live demo: student-wellness-score-ai-gzyd.vercel.app | GitHub: github.com/ChandraNarayanPanda/student-wellness-score-ai

- Built and deployed a full-stack web app that predicts a student's wellness score (0-10) from 12 inputs such as sleep, screen time and stress.
- Developed a FastAPI REST API with Pydantic validation to serve the trained scikit-learn model to the frontend.
- Designed a responsive, accessible JavaScript frontend and deployed the full application on Vercel.

Breast Cancer Prediction System (CTTC) | Python, Flask, HTML, CSS, Scikit-learn | Jun 2025

- Developed a Flask web application with an HTML/CSS interface that collects 30 input features and displays prediction results.
- Deployed a classifier trained on the Wisconsin Diagnostic dataset (569 samples), achieving 96% accuracy and 95% recall.

INTERNSHIP EXPERIENCE

Front End Web Development - Project Based Learning Program - IBM SkillsBuild with CSRBOX | Jul - Aug 2025

- Completed project-based training in front-end web development (Click, Code, Create: Beginner's Guide to Front End Web Development).

AI/ML Intern - CTTC | Jun 2026

- Completed Python training across the full ML workflow, from data cleaning to model deployment.
- Improved model accuracy from 92% to 96% through tuning with GridSearchCV.
- Debugged issues with peers and mentors and adopted new libraries quickly by acting on feedback.

EDUCATION

B.Tech, Computer Science and Engineering | Gandhi Engineering College (GEC), Bhubaneswar | Expected 2027 | CGPA: 8.92 (till 6th Semester)
12th (CHSE) - Kalinga Bharati Residential College, Cuttack | 63% | 2023
10th (BSE) - Govt. High School, Kendujhar | 86% | 2021

CERTIFICATIONS

- JavaScript Essentials - Cisco Networking Academy | Programming & Problem Solving - GeeksforGeeks
- Machine Learning with Python - IBM SkillsBuild | Introduction to Artificial Intelligence - Infosys Springboard

ACHIEVEMENTS

- 1st Position, College Technical Quiz Competition; 2nd Position, College Coding Competition
- Kabaddi Captain and two-time champion, college Annual Sports Championship (leadership, teamwork)
